

Firefighters are up to 45% more likely to be diagnosed with colorectal cancer than the general population.

But there is an easy way to change that story. Get screened.

The Colorectal Cancer Alliance is here to help.

Let's tell a
new story.

If you're **40 or older**, get screened for colon cancer, as recommended by the IAFF Wellness-Fitness Initiatives (WFI) Medical Committee.

Getting checked is important, safe, and most people have options.

Get started at quiz.getscreened.org
or call our helpline at (877) 422-2030.
